

Faculty Course Completion Plan (FCCP)

This document outlines the course completion plan agreed upon by the faculty participant in IDL6543 and the department chair.

Please keep in mind the minimum requirement (from the Center for Distributed Learning) dictates the following documents are to be completed by the IDL6543 showcase. This required content development constitutes about 10% of the course content.

- Syllabus and course expectations
- One unit/module of content
(including module objectives, activities, and an assessment strategy)

If you plan to teach the course online the term following your completion of IDL6543, it is recommended that you complete the first month of online content and activities prior to the IDL6543 Showcase (roughly 30 % of the course).
